Hazard Priority Ranking (This section provides an estimate of the risk associated with the incident/accident.)

Potential for Consequence: The first ranking estimates the severity of the problem if the potential accident/incident were to occur.

- 1 **Imminent Danger** (e.g., causing death, widespread illness, loss of facilities)
- 2 **Serious** (e.g., severe injury, serious illness, property and equipment damage)
- 3 **Minor** (e.g., non-serious injury, illness, or damage)
- 4 **Negligible/Okay** (e.g., minor injury, requiring first aid or less)

Frequency to Exposure: The second ranking estimates the probability (think in terms of risk assessment) of the accident/incident occurring.

- A **Probable** – likely to occur immediately or soon
- B **Reasonably probable** – likely to occur eventually
- C **Remote** – could occur at some point
- D **Extremely remote** – unlikely to occur

Reporting Incidents/Accidents to the Worker's Compensation Board

The following will be reported to the Board (s.54(1) and (2) of the Act) by the Duz Cho Logging Manager:

- every injury to a worker that is or is claimed to be one arising out of and in the course of employment within three days of its occurrence, and
- every disabling occupational disease or claim for or allegation of an occupational disease within three days of being notified by the worker

using WSBC Form 7, "Employer's Report of Injury or Occupational Disease".

A reportable injury is one where one of the following conditions is present or subsequently occurs:

- The worker loses consciousness following the injury.
- The worker is transported or directed by a first aid attendant or other employer representative to a hospital or other place of medical treatment, or is recommended by such persons to go to such place.
- The injury is one that obviously requires medical treatment.
- The worker has received medical treatment for the injury.
- The worker is unable or claims to be unable by reason of the injury to return to his or her usual job function on any working day subsequent to the day of the injury.
- The injury or accident resulted or is claimed to have resulted in the breakage of an artificial member, eyeglasses, dentures or a hearing aid.
- The worker of WorkSafeBC has requested that an employer's report be sent.

The following will immediately be reported to the Board (s. 172(1) of the Act):

Any accident that:

- results in serious injury to or the death of a worker,
- involved a major structural failure or collapse of a building, bridge, tower, crane, hoist, temporary construction support system or excavation,
- involved the major release of a hazardous substance, or
- was an incident required by regulation to be reported.

FOR IMMEDIATE REPORTING

WorkSafeBC (Worker's Compensation Board) Prevention Emergency Line 1-888-621-7233.

Investigating Incidents/Accidents

An incident/accident investigation must be completed for each incident listed above. Furthermore Duz Cho Logging will also complete this process for any reported incident or accident that did not involve injury to a worker, or involved only minor injury not requiring medical treatment, but had a potential for causing a serious injury to a worker.

Copies of completed investigations must be provided to (s. 175 of the Act)

1. Safety Committee
2. Worker's Compensation Board

Finally, as a follow up to the investigation, Duz Cho Logging will prepare a report of the actions taken as a result of the investigation (report on the status of outstanding corrective actions identified) and provide this report to the joint Safety Committee. (s. 176 of the Act)
